

**CamShare**  
Free car sharing in Cambridgeshire

## Car Share With CamShare

The free car sharing website for Cambridgeshire is [www.camshare.co.uk](http://www.camshare.co.uk).

Car sharing can be an ideal option for those that don't live within a distance realistic to cycle, or those that don't live on a bus/train route. For some people, car is the only option.

CamShare has over 8,000 members and matches people's journeys to others who are making the same or similar journeys – so people can contact each other and form a car sharing group, whether it be with two, three or more people.

Car sharing for the commute has many benefits for both the employer and their staff:

### Employer:

- Free up valuable car parking space
- Happier and wealthier and more productive staff
- Contributing to reducing congestion – wider benefits for business and commerce
- Compliments Corporate Social responsibility policies

### Staff:

- Share fuel and car parking costs

- Share fuel and car parking costs
- Reduce wear and tear on the car
- Enjoy the social element of getting to know other people
- Cut congestion and pollution
- Reduce the stress of driving
- You can share even if you don't drive/own a car!

We can assist businesses in many ways to promote car sharing in your workplace, including [mapping staff home locations](#) so they can identify potential car sharers in the same office, or running a promotional car sharing event.

Please [contact us](#) to discuss.
